

# DISPOSABLE 3-PLY FACE MASK

Globe Resources' 3-ply face mask is a carbon-filtered disposable mask that is worn over the nose and mouth to protect the user from the unhealthy environment. The mask helps to reduce the spread of viruses, germs and bacteria. It also provides relief and allows freer breathing for allergy sufferers. Our face masks contain a high-level carbon filtration which has a fabric middle layer to effectively block out micro dust and bacteria. Our face masks are very suitable for various industries such as medical, healthcare, hospitality, food, tourism and more.

## ISO 9001:2015 CERTIFIED

Globe Resources' face masks are ISO 9001:2015-certified. ISO 9001:2015 is the most updated standard of its kind and focuses on quality management systems and performance. With ISO 9001:2015 certification, our face masks follow the requirements, specifications, guidelines and characteristics set forth to ensure that we are consistently producing face masks that meet world-class standards.
